The Problem

Why Traditional Venture Building Fails

- **Slow:** Traditional venture models take 18-24 months to reach MVP
- **Expensive:** Building internal teams costs $500K-2M before any revenue
- **Fragmented:** Market research, talent, funding — all disconnected
- **Risky:** 90% of startups fail, often due to preventable mistakes
- **Manual:** Most processes still rely on spreadsheets and gut feelings

The market needs a unified, AI-powered platform that makes venture building fast, affordable, and data-driven.

Our Solution: Venture OS

INFINITI's proprietary Venture Operating System automates 80% of the startup launch process:

- **AI Business Plan Generator:** Investor-ready plans in <24 hours
- **Market Research Engine:** Real-time competitive & market analysis
- **Team Builder:** 50+ pre-vetted specialists, AI-matched
- **Financial Modeling:** Automated projections & scenario planning
- **Investor CRM:** 11,000+ investors, automated outreach
- **Legal Automation:** Term sheets, SHA, incorporation in minutes

Result: 10x faster launch | 5x lower cost | Higher success rate

Traction & Metrics

Metric	Current
Platform Status	Live (console.infiniti.stream)
Specialist Network	50+ pre-vetted experts
Business Model Library	250+ validated models
Investor Network	11,000+ contacts
Products in Pipeline	12 for 2026
Target ARR (Year 1)	$2.5M

Business Model

3-Tier Revenue Model

Tier	Price	Target	Revenue Type
DIY (Founder)	$499/month	Early founders	Recurring SaaS
Concierge (Growth)	$5K-20K/month	Funded startups	Recurring + Success
Studio (Enterprise)	20-40% equity	High-potential ventures	Equity upside

Additional Revenue Streams:

- Co-investment fund management fees
- Talent placement commissions
- Business model licensing
